Bobby's Book - 01-02-2011, 10:34 AM

Got the book and it is a great read. When you have been to some of the places in the book and played on the road you really think how it all can happen. Most people don't believe how these things can happen around pool. I have been shot while out on the road and even as bad as it hurt then I look back and think it was great back then.

Bobby's story telling ability brings the players and the action to life. Bobby you are a great story teller and the book reads great. Remember too much wild sex will hurt you're pool game. Most people think it is getting older that does that, I think it is the wild crap that we did back then that hurts now.

I hope everyone enjoys this book as I have and maybe Bobby will come up with another one, as the stories sure make the past come to life.

Thanks Bobby

Got my book this morning. This is a nicely done hard cover book. Just flipping through it I can tell a lot of time, thought, and work went into this. I will sit by the fire and maybe even fire one up for old time sake and enjoy this book tonight. Very nice job Bobby.

Thank you. Johnnyt

PS: Every time I read one of these road story books I want to take my cue and jump on my Harley and start hitting the bars again. OH Wait. My wife made my get rid of my Harley. I'll have to take my Mustang. LOL

Couldn't Stop - 12-29-2010, 10:50 AM

Got my book yesterday and stayed parked in front of my mailbox for at least 20 minutes reading it. When I realized how stupid I looked I put it up and drove off.

As one of the characters in the book, I can say this.....it is pretty much spot on! Can you imagine those days with today's cell phones

When Cotton gets started you feel like your right there in the room while its happening. I know some stories are a little ruff around the edges...but its real life for this old hottie, thanks for taking the time to write your memories, I'm sure it will be fun reading.
